

Horndon 10k Race - 29 June 2014 - RESULTS (Issue 2)

Stuweb Race Management Services (the chip timing people) declined to provide a copy of the results on a USB stick and also declined to provide a print out to pin up in the Bell. That is why this was the first time in the nearly 40 year history of the race that the results were not available in the Bell.

The results are now available on their website but I understand that there are several omissions and anomalies. The Organisers, The Rotary Club of Thames Gateway, are in contact with StuWeb and I have been told that these issues will be addressed.

See: <http://www.stuweb.co.uk/events/2014/06/29/1637/>

The following are for those who like the results in the "traditional" H10k format. Some corrections have been made, Teams and position in age group have been added.
